

Help with - MOBILE APP'S

By using the CodeRed by Crisis24 mobile app, you can receive alerts directly on your mobile device whether at home, on the road, or traveling nationwide.

The app isn't tied to a specific county, but it delivers alerts based on your mobile location. Therefore, ensure you enable location sharing. The benefit of the app is that if you happen to be in an area where a CodeRED alert is sent, you will receive the alert notification on your phone even if you aren't registered for that specific community (which would be via the unique weblink for that community's Account Portal).

For **iPhone** users, download the App using the QR code below or visit the App Store at: <https://apps.apple.com/in/app/codered/id1569880508>

For **Android** users, download the App using the QR code below or visit the Google Play Store at: <https://play.google.com/store/apps/details?id=com.onsolve.codered>
